

soundstyle

Care & Maintenance Guide

Soundstyle is manufactured with quality materials and requires minimal up keep to maintain its high quality finish.

Before starting any recommended cleaning method, always spot check on a concealed section to ensure it will not impact the adhesives or product. Treat spills and stains as soon as possible by using a damp cloth using the cleaning guide below.

If you do get a small build up of dust we recommend a light vacuum using an upholstery attachment on low suction. Do not use a vacuum attachment with a rotary brush. Brushing may damage the nap or character of the fabric.

Stain	Recommended Spot Treatment
• Dust • Dirt	• A light vacuum using an upholstery attachment on low suction. • Do not use vacuum attachment with a rotary brush. Brushing may damage the nap or character of the fabric.
Food & condiments (such as butter or sauce)	• Remove surplus with a knife edge or appropriate instrument. • Softly sponge with water and blot dry. For more stubborn stains, use liquid detergent (such as Softly Delicates) instead of water. • Apply sparingly to not impact the adhesive within the product.
Drinks (such as orange juice, coffee or wine)	• Blot the excess moisture with a dry clean cloth. • Softly sponge with water and blot dry. For more stubborn stains, use liquid detergent (such as Softly Delicates) instead of water. • Apply sparingly to not impact the adhesive within the product.

Although this guidance is offered in accordance with product testing, no responsibility is accepted for any issues arising from the treatments mentioned. Contact a professional cleaner immediately should stains persist.
