

Bold Blacks

Bold Blacks pairs strong architectural materials with rich texture and natural warmth. Vertical cladding, natural stone and steel elements work together to highlight the home's bold forms and rural character, while tactile finishes add depth and authenticity.

Contrasting shades

Pair crisp white cladding or render with black frames, roofing and details for contrast.

Touches of warmth

Introduce timber cladding, natural stone or entry features to soften a monochromatic scheme.

Defined materials

Use consistent material finishes across key forms for a clean, confident exterior.
