

Strong Darks

Strong Darks scheme pairs robust, architectural materials with rich texture and depth. Russet red brick, blackened steel, dark roofing, and textured concrete create a bold foundation, while natural stone accents soften the industrial edge.

Expansive glazing

Use large industrial-style windows and openings to maximise light, scale and indoor-outdoor flow.

Black sculptural tapered planters

Raw materials

Layer steel, brick, concrete and stone to create texture and reinforce industrial character.

Clean silhouettes

Keep rooflines clean and uncluttered to highlight bold geometry and strong gabled forms.
