

Warm Greys

Warm Greys combines tactile, architectural materials to create a look that feels refined, understated, and enduring. Textured concrete, smooth render, and brushed metal finishes are layered with warm timber accents to soften the geometric form and add depth.

Layered materiality

Combine concrete, render, brick and timber with subtle texture for warmth and depth.

Stainless steel wall light

Subtle highlights

Use silvery highlights and tonal shifts to add dimension while keeping a refined grey palette.

Warm grey undertones

Layer soft silver and dove greys with warm cream or blush undertones for an inviting exterior.

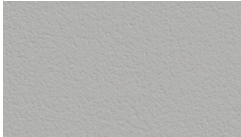

Warm Greys

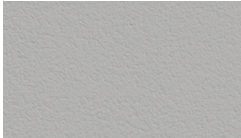

Scheme 1

Primary cladding Hebel® PowerPattern® painted in Dulux® Silkwort	Feature cladding Cemintel® Territory™ Woodlands Teak	Feature cladding PGH® Bricks Morada Ceniza	Feature cladding PGH® Stone Rugged LedgeStone Alpine Grey
			
Ventilation: Bradford® AiroMatic™ in COLORBOND® Windspray®		Gutter: COLORBOND® Shale Grey™	
		Fascia: COLORBOND® Shale Grey™	

Scheme 2

Primary cladding Hebel® PowerPanel ^{XL} rendered in Dulux® Silkwort	Feature cladding Cemintel® Territory™ Woodlands Birch	Feature cladding PGH® Bricks Nightfall Haze	Feature cladding PGH® Stone Classic LedgeStone Alpine Grey
			
Ventilation: Bradford® SupaVent™ in COLORBOND® Windspray®		Gutter: COLORBOND® Shale Grey™	
		Fascia: COLORBOND® Shale Grey™	

Scheme 3

Primary cladding Hebel® PowerPanel ^{XL} rendered in Dulux® Silkwort	Feature cladding Cemintel® Territory™ Woodlands Limed	Feature cladding PGH® Bricks Connoisseur Chai	Feature cladding PGH® Stone Natural Fieldstone Alpine Grey
			
Ventilation: Bradford® WindMaster™ in COLORBOND® Windspray®		Gutter: COLORBOND® Shale Grey™
