

Confident Blacks

A scheme built on bold black-and-white contrast, and grounded by brown accents to create a look that is both expressive and rooted in natural warmth. The black and white foundation offers clean, architectural clarity, while the brown tones – echoing timber, leather, and natural earth – bring depth, authenticity, and grounded richness.

Bold contrast

Balance deep blacks and crisp whites with feature finishes for a confident interior.

Low organic round black side table

Rustic touches

Use stone, timber, linen, leather and wool to soften the monochromatic palette.

Architectural features

Highlight high ceilings, exposed beams and statement lighting to celebrate scale and character.
