

Raw Darks

The Raw Darks scheme typically includes charcoal blacks, deep greys, soft whites, and raw material tones – such as concrete neutrals, weathered timber, oxidised metal, and aged leather. The interplay of dark and light tones adds drama and depth, while the raw textures introduce warmth and lived-in authenticity.

Material balance

Balance concrete, brick and steel with timber, stone and soft textiles for warmth and depth.

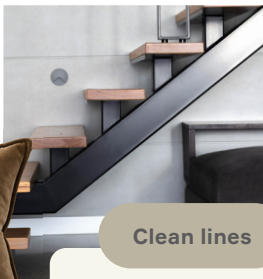

Deep grey and bronze cushions

Clean lines

Use tactile finishes, clean-lined furniture and curated pieces for a refined, liveable feel.

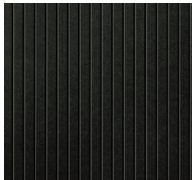

Raw finishes

Pair exposed steel, concrete and brick with timber, stone and textiles for warmth and balance.
